3rd-Party TESTED

U.S. Grown

manefocus™

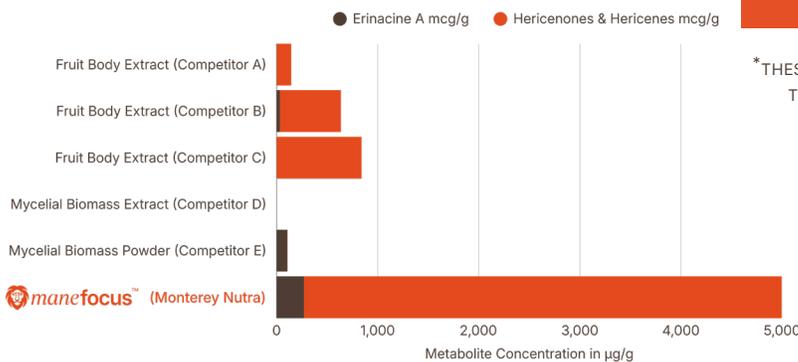

The most potent Lion's Mane ingredient. Dual-extracted and standardized to greatest total metabolites.

Our organic ManeFocus™ extract is full-spectrum, made in the USA, with California grown mushrooms and third party tested, for the most transparent label possible.

Get More with proprietary Dual-Extraction Technology

By pairing hot-water extraction with an innovative fermentation-based process, we unlock exceptionally high concentrations of key actives in a form the body can readily absorb compared to standard dried and powdered mushroom. The result is a potent extract with a clean, smooth, neutral taste.

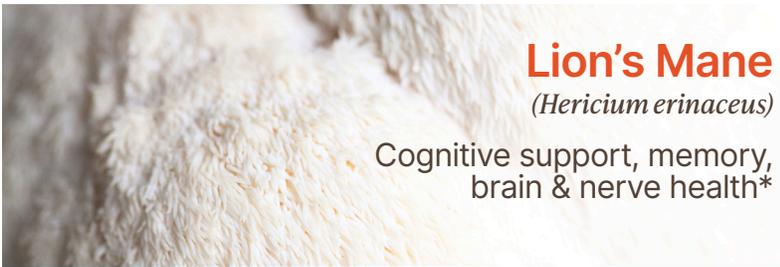

The metabolite profile of prominent brands of Lion's Mane powders compared to ManeFocus:

Industry-Leading Potency Superior Solubility Neutral Taste

Lion's Mane (Hericum erinaceus)

Cognitive support, memory, brain & nerve health*

Full-Spectrum Makes a full difference

ManeFocus consists of wood-grown Lion's Mane fruiting bodies, naturally rich in hericenones and hericenenes that may support complementary pathways for neuronal growth, resilience, and protection. Then we layer in the mycelium for what it uniquely contributes: erinacines, compounds found only in the mycelium, known for crossing the blood-brain barrier and supporting key neurotrophic signals like NGF and BDNF. The result is a true full-spectrum extract, uniting both fungal components to deliver exceptional neurological and metabolic benefits. *
